Subject: RE: M4 POW Bridge resurfacing customer working group

Hi both

Firstly apologies I had a couple of things crop up this week which meant I wasn't able to get an initial Comms plan to you by yesterday.

I've completed a first draft which is saved here  [M4 PoW resurfacing Comms handling plan.docx](#) there's a couple of points that need support from you to develop, including a Q&A doc that I'd imagine [REDACTED] in the press office would want to input to as well.

Perhaps we can discuss some of the points in next weeks meeting.

Many thanks

Hi [REDACTED]

Many thanks for this! I will fill out the brief asap!

I've added the presentation into the folder now. Regarding the M48 Main Cable Inspection works, I will see where I can find the folder and will get you added onto it!

Kind regards

Hi [REDACTED]

Thanks for getting the below folder sorted. I uploaded the key points brief template last week, please could it be filled out?

I still don't think I've seen sight of the powerpoint presentation you shared in the first meeting, could it be added to the folder? If possible could I also be added to the old Teams site for the M48 cable inspection works too please? I want to check the Comms material in it so I can apply a similar approach. Both of those things would be really helpful so I can complete the first draft of the Comms handling plan which I understand you wanted sight of by tomorrow.

Many thanks

Hi all,

Please fine the attached SharePoint folder to keep all the information in. It is a joint one with Amey to allow for all of us to access if needed. PoW Resurfacing of CBS

Please let me know if you are having issues accessing!

Kind regards

[REDACTED]
