Thanks for this. Given the sensitivities of the area I understand and am content with this approach to what, anywhere else, would seem reasonably dealt with by condition.

Cheers.

[REDACTED] and [REDACTED]

I have previously discussed this development site with both of you and you are both aware of the background and issues around Treguddick.  
Given that [REDACTED] is on leave after today and may not therefore have time to approve the attached recommendation before the end of the day, I have also copied to Simon. I need to issue by next Wednesday.

I hope the recommendation is self explanatory and reflects our agreed position and approach but please feel free to amend as necessary.

Background docs and email exchanges are on share here:

Many thanks
