08-Dec-25	Zoe Franklin MP	South East	Christine Allen	Reactive	Medium	11 Nov 2025, MP made request for a stakeholder meeting to discuss safety concerns on the Potters Lane, A3, junction.	The MP would like to meet with National Highways to discuss calls from residents to close Potters Lane at its junction onto the A3 due to local safety concerns and reported collisions. The MP has made recent public calls for this lane to be closed and has stated she will be interested in hearing National Highways stance on this issue. The MP has made previous requests for a stakeholder meeting with residents, the local council, and National Highways to discuss this issue further. To date, this has not been confirmed.	Send parish council started to gun for NH initially but Keiron and the local MP managed to bring them round. We said that closing the entrance to Potters lane would cause issues to other local roads etc and a proper study would be required from Local Authority to explore different options etc. we offered our support moving forward.a positive meeting.
