I have previously discussed this development site with both of you and you are both aware of the background and issues around Treguddick.
Given that [REDACTED] is on leave after today and may not therefore have time to approve the attached recommendation before the end of the day, I have also copied to [REDACTED] I need to issue by next Wednesday.

I hope the recommendation is self explanatory and reflects our agreed position and approach but please feel free to amend as necessary.

Background docs and email exchanges are on share here:
